

Benjamin Franklin Plumbing, Plumber and Water Heater Repair in Springfield MO Now Offers Financing Opportunity for Tankless Water Heaters

Trusted Springfield MO Plumber and Water Heater Expert Introduces New Tankless Water Heater Financing Program to Customers in Need

Springfield, MO ([PRWEB](#)) February 20, 2014 -- [Springfield Mo water heater repair](#) customers interested in purchasing a new energy efficient tankless [water heater](#) are now offered a convenient financing program. With low monthly payment options, Benjamin Franklin Plumbing now offers an affordable way for customers to remove their old wasteful water tanks and replace them with an updated efficient system.

Popular for [water heater repairs in Springfield MO](#), Benjamin Franklin Plumbing cautions that repairing an old, inefficient water heater can sometimes lead to wasted energy and money. A tankless water heater eliminates wasted water and the slow heating system of conventional tanks. Tankless systems work with a hot water circulating pump to heat water instantly as it is needed. Tankless systems are small in size and do not run the risk of bursting. By heating water only as it is needed, energy costs are lowered as water is not constantly kept hot by a tank.

Water heaters are often replaced in an emergency, and due to this unplanned circumstance, customers typically do not have the funds needed to purchase a high quality tank readily available. Ben Franklin Plumbing offers financing options that make a top ranked system available to most customers. Monthly payments are also available for customers looking to replace their outdated system and avoid a large upfront expense by spreading payments over an extended period of time.

Financing is obtained through Wells Fargo Bank. Customers are able to apply for financing and make payments with application approval by Wells Fargo. Payment amounts and loan extension details will be determined by Wells Fargo.

Dedicated to serving the Springfield, MO public, Benjamin Franklin Plumbing is proud to offer options for their customers to purchase the best available systems. Trusted for experienced professional opinions and excellent customer service, Ben Franklin Plumbers offers plumbing services, repair and replacement. Ben Franklin Plumbers also installs gas-fired, electric and tankless water heaters.

About Benjamin Franklin Plumbing

Benjamin Franklin Plumbing is a full service plumbing company serving Springfield, Missouri and surrounding areas. The company provides plumbing repairs, service checks, installations and many other services to residential customers.
